

Service Guarantee Timer T2

Semi-Automatic Timer with Wireless Option

The T2 Timer is designed specifically for McDonald's Restaurants service guarantee promotions. Automatic electronic activation is provided by a printer trigger that starts the timer (after a preset delay) when a customer receipt is printed. For drive-thrus where the printer is not in the presenter booth, an optional wireless printer trigger or pushbutton is available. User-installability eliminates installation costs.

Remote Display Option

Multiple remote displays can be added at any time.

Super-Bright Displays

Large, sunlight-viewable double-sided LED displays provide high visibility day or night.

Portability

The T2 Timer mounts instantly to any window or wall, and can be removed and reinstalled without damage for true portability.
